

Course 1: Visit to the Modern Museums in Tokyo

“The National Art Center” & “National Museum of Emerging Science and Innovation”

Roppongi in Tokyo has been known as an amusement quarter. Recently the city was even spiced up with a new urban design called “Roppongi Art Triangle” which was completed with the establishment of The National Art Center. The National Museum of Emerging Science and Innovation is a new type of science museum that provides opportunity to visitors to experience the latest technology. You can enjoy the cutting-edge science and technology at this museum.
